VEHICLE REPOSSESSIONS

THESE ARE REAL SAVINGS-TAKING ADVANTAGE OF THE CURRENT COLLAPSE IN THE FINANCIAL CLIMATE.

We have been officially appointed as Southern disposal agents for one of Britains largest Finance and Leasing companies.

Recent months have seen huge numbers of nearly new commercial vehicles and cars prematurely returned to the finance companies which are now available for a fraction of their original cost.

In most cases the settlement figures required are much lower than even the discounted forecourt prices of the dealer network.

Financial terms often with no deposits can be offered, and many ex lease vehicles are VAT exempt as the VAT has been paid "up front" when first supplied.

With regards to warranties, all vehicles up to 3 years old are covered by the Manufacturers and any vehicles over this age come with a full Black Horse cover. In addition, part exchange allowances still apply against these discounted vehicles.

Simply give us a call on the number below with the details of any vehicle specification you may require and we will quote you from the 11,300 vehicles currently available.

These vehicles are available through Black Horse Finance.
